***Response to Amendment***

The following is in response to the amendment filed on September 1, 2005.

***Allowable Subject Matter***

Claims 19-28 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest a method of producing a glass product wherein a glass melt having a viscosity of 1000 poise at 1350°C or higher is distributed from the outlet of a melting furnace to a distributor, passed through the distributor to a plurality of branch paths, and then passed through the branch paths to glass forming devices.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

Applicant's arguments filed September 1, 2005 have been fully considered.

The amendments to the claims have overcome all rejections under 35 U.S.C. 102(b) and 103(a) set forth previously.

Art Unit: 1731
